

'Groove' range technical data sheet.

The Groove range of furniture is produced from the highest quality 99% recycled cardboard and bamboo sourced from Australian suppliers.

Cardboard Specification

We are using 645 BC cardboard, which is approximately 6.5mm thick. This density is selected in order to pass durability tests.

Resistance

The 'Groove' range is for internal use only. Exposure to water will permanently damage the furniture.

Avoid naked flames.

Usage

The 'Groove' range of furniture is suitable for both residential and commercial environments.

Maintenance & Cleaning

Most effective cleaning method is with a duster or using a vacuum cleaner to remove surface dust.

Products can be wiped down with a lightly dampened cloth.

Bamboo components are water resistant, (if cardboard sections are removed) they can be thoroughly cleaned with a damp cloth.

Coffee, tea, wines, juices will cause permanent stains.

Glues

No glue is used on the 'Groove' range of furniture.

Warranty

There is a 1 year warranty for manufacturing fault, which does not include wear and tear damage.

Spills of coloured liquids or total damage caused by water or any other exposure against recommended rules
